INTRODUCTION

The following remuneration disclosures have been prepared for Australian Central Credit Union Ltd, trading as People's Choice Credit Union (People's Choice), in accordance with APRA's remuneration disclosure requirements under prudential standard APS 330 Public Disclosure (APS 330) and the Board Remuneration Policy (Remuneration Policy).

APS 330 requires that all Authorised Deposit-taking Institutions (ADIs) meet the minimum requirements for public disclosure of qualitative and quantitative information of their remuneration practices.

The quantitative information relates to senior managers and material risk takers employed by People's Choice during the financial year ended 30 June 2021. The qualitative remuneration disclosures are broader in scope and cover all individuals included in the Remuneration Policy, as outlined in prudential standard CPS 510 Governance (CPS 510).

The information reported is provided for regulatory disclosure purposes and is not comparable to accounting reporting or any other information disclosed elsewhere by People's Choice.

Senior Managers for the purpose of this disclosure include the Chief Executive Officer (CEO), the Executive Management Team, and Responsible Persons (as per the Remuneration Policy). A 'Senior Manager' refers to each responsible person included in an ADI's Remuneration Policy under paragraph 57(a) of CPS 510. During the financial year ended 30 June 2021, the total number of employees within this group was 9. As at 30 June 2021, there were 8 employees within this group.

Material risk takers are defined as persons included in an ADI's Remuneration Policy under paragraph 57(c) of CPS 510 as all other persons for whom a significant portion of total remuneration is based on performance and whose activities, individually or collectively, may affect the financial soundness of the regulated institution. Based on this definition, the Board has assessed that for the purposes of this disclosure, there are no additional employees who are not already covered by the Senior Manager definition.

QUALITATIVE DISCLOSURES

Remuneration Governance

The Board is responsible for remuneration governance. It has established the Remuneration Committee (Committee) as the main body which oversees remuneration for People's Choice and its responsibilities include:

- conducting regular reviews of, and making recommendations to the Board on the Remuneration Policy;
- making annual recommendations to the Board on the remuneration of the CEO and direct reports of the CEO;
- overseeing the remuneration of other persons whose activity may, in the Committee's opinion, affect the financial soundness of People's Choice, and any other person specified by APRA; and
- making annual recommendations to the Board on the remuneration of any other categories of persons covered by the Remuneration Policy.

The roles and responsibilities of the Committee are set out in the "Remuneration Committee Terms of Reference" (Terms). The Terms are reviewed by the Committee at least every 18 months and reviewed and endorsed by the Board at least every three years.

The Terms provide that the Committee will comprise at least three non-executive directors appointed by the Board. Members of the Committee are appointed annually by the Board.

The Committee is required to meet a minimum of three times during each financial year. During the financial year ended 30 June 2021, the Committee met 4 times.

In line with paragraph (g) of Table 21 of APS 330, the fees paid to the Committee in total are set out below. Because members of the Committee also sit on other People's Choice Board Committees and the Board itself, the fees quoted below also include remuneration earned in relation to performing the duties of those additional positions.

Financial year ended 30 June 2021

Committee Members	3 (including Chair)
Meetings	4
Total Fees ¹	\$411,903

The Committee has available to it unfettered access to internal risk and financial control personnel and other relevant employees. The Committee is also empowered to consult independent external advisers where it is deemed necessary to assist in the carrying out of its duties. Where the Committee chooses to seek advice from external advisers the Committee can do this independently of, and without involving, management of People's Choice.

During the financial year ended 30 June 2021, the Committee engaged Korn Ferry Hay Group and Financial Institutions Remuneration Group (FIRG) to advise on market remuneration data and market practice.

Remuneration Policy and Framework

To assist with the management of People's Choice's remuneration processes, the Committee has approved the Remuneration Policy which sets out the design and structure of the remuneration processes for People's Choice.

The Remuneration Policy applies to People's Choice and its controlled entities. The Remuneration Policy provides a remuneration structure comprising base salary and short-term incentive (STI) to reward employees covered by the policy.

The Remuneration Policy:

- Outlines the general principles of remuneration for employees;
- Outlines the general principles for the setting of performance goals for employees; and
- Explains the relationship between the Remuneration Policy and other People's Choice management policies relating to remuneration and performance goals.

The Committee reviews the Remuneration Policy at least annually and recommends any amendments to the Board for approval. During the reporting period the following changes to the Remuneration Policy were endorsed:

- A review of the roles covered under the Remuneration Policy according to CPS 510.
- Other minor amendments to position titles to reflect the current organisational structure.

People's Choice's remuneration policy aims to remunerate competitively in line with the financial services market considering factors such as organisational size and complexity, and role responsibility in order to attract and retain the talent necessary to meet organisational objectives.

The remuneration structure in place for employees is consistent with People's Choice's Remuneration Policy and is based on a total remuneration approach comprising an appropriate mix of fixed (salary and benefits) and, where applicable, variable remuneration. The total remuneration mix for an individual varies depending on a number of factors which are outlined in the next section.

¹ Members of the Committee also sit on other People's Choice Board Committees and the Board itself, therefore fees quoted also include remuneration earned in relation to performing the duties of those additional positions. 8

Remuneration Components

Remuneration arrangements for employees of People's Choice may encompass the following components:

- Fixed remuneration – salary based on role size and market value
- Variable remuneration – performance based, at-risk bonus

The table below provides an overview of the remuneration components applicable to employees of People's Choice.

Item	Structure, Performance and Risk Alignment
Fixed Remuneration	<p>Fixed remuneration is comprised of base salary, fees, any fringe benefits, superannuation, and any employee salary sacrificed benefits.</p> <p>Fixed remuneration is commensurate with the size and complexity of the role, individual responsibilities, individual performance, experience, and skills. Fixed remuneration is typically reviewed annually, as part of the annual remuneration review. This review takes into account the employee's individual performance against various KPIs and market relativity.</p> <p>Superannuation contributions are paid according to statutory requirements.</p>
Variable Remuneration	<p>Employees may participate in variable remuneration arrangements, depending on their job role. Payment of any variable remuneration is subject to meeting the eligibility criteria (including risk and compliance modifiers).</p> <p>For those employees eligible to receive an annual incentive payment, the amount paid is typically based upon a number of different factors. These factors include the performance against certain Corporate Key Performance Indicators, the performance of the individual's business unit, and the individual's performance which is reviewed and rated annually.</p> <p>The determination of incentive remuneration is based on various performance metrics i.e., financial and non-financial metrics. Financial metrics include retail deposit and loan portfolio growth, the cost to income ratio and net profit before tax. Non-financial metrics include compliance with risk management frameworks, employee engagement and culture, membership growth and advocacy, and other strategic initiatives.</p> <p>In determining the payout under any component of variable pay, People's Choice adopts, as policy, the use of set targets to determine the extent to which overall organisation performance has been achieved as well as individual performance. The Committee retains discretion to recommend to the Board variations to the incentive payment to reflect the achievement of performance metrics.</p>

Remuneration and Risk Management

The Remuneration Policy forms part of People's Choice's Risk Management Framework.

The Committee ensures that the Remuneration Policy encourages behavior that supports People's Choice's long-term financial soundness, growth, and success within an appropriate risk management framework and within the risk appetite as approved by the board.

Performance based components of remuneration are designed to align remuneration with prudent risk taking and incorporate adjustments to the extent that it is practical and cost effective to do so, relative to the amount of the at-risk component, to reflect:

- the outcomes of business activities;
- the risks related to the business activities taking account, where relevant, of the costs of the associated capital; and
- the time necessary for the outcomes of those business activities to be reliably measured.

Failure to meet requirements in relation to compliance and risk conduct results in the forfeiture or reduction of variable remuneration payable to the employee.

Further, the Remuneration Policy provides that after careful consideration of the ongoing financial soundness of People's Choice, or in response to significant unexpected or unintended consequences, the Committee may recommend to the Board that the annual performance incentive to be received by employees covered be reduced, including to zero if appropriate, with the same reduction rate applying to all or to a selected group.

Performance and Reward Linkage

Variable remuneration payments under People's Choice variable remuneration plans are linked to several performance measures including strong individual performance and the performance of People's Choice (through financial and non-financial measures).

Further information on the link between KPIs and variable reward plans are outlined below:

Component	Input into variable reward plans
People's Choice performance against Corporate KPIs	<p>People's Choice performance is assessed against both financial and non-financial measures which support People's Choice short-term performance and long-term strategy. For Senior Managers, these measures are weighted and scored to give an overall performance score.</p> <p>Financial measures include retail deposit and loan portfolio growth, cost to income and net profit before tax.</p> <p>Non-financial measures include net membership growth, net promoter score, employee engagement, strength of culture, risk appetite, defined transformation program initiatives, and conduct and compliance risk.</p> <p>An increase in People's Choice performance results does not automatically increase total variable remuneration, however reduced performance across a range of metrics will impact on the amount of variable remuneration payable to senior employees, for example, poor financial results will result in an appropriate reduction to variable remuneration outcomes.</p>
Employee performance against individual KPIs	<p>All employees are required to complete a performance review against individual performance objectives that are set and agreed at the start of the relevant performance year. Objectives are set using a top-down approach to ensure individual objectives align with People's Choice strategy.</p> <p>Assessment against these objectives is completed at the end of the performance year and employees receive a performance rating of either "meets expectations", "exceeds expectations", "partially meets expectations" or "below expectations". This rating directly feeds into the annual review of fixed remuneration for the employee.</p> <p>An employee's level of individual performance directly affects their potential variable remuneration outcome. Higher levels of individual performance result in higher levels of variable remuneration whilst poor individual performance may exclude an employee from any variable remuneration payment.</p> <p>Employees are also assessed against People's Choice corporate values with the rating outcome serving as an input into remuneration outcomes.</p> <p>Individual performance requirements for Executive Managers are set by the CEO and endorsed by the Committee.</p>

Deferral and Clawback

People's Choice may utilise deferred bonuses and/or clawback as a risk management approach where it is determined appropriate or required by the Banking Executive Accountability Regime (BEAR). Any deferred bonuses or clawbacks for non-executive positions are recommended by the CEO and approved by the Committee. Executive positions are subject to the Banking Executive Accountability Regime (BEAR) and hence all Executive bonuses are subject to deferral in accordance with BEAR which is overseen by the Board on advice from the Committee.

Employees may be subject to clawback provisions as outlined in the relevant remuneration terms for the position. Such provisions may include, but are not limited to, the right of People's Choice to suspend or cancel payments in circumstances where:

- Eligibility requirements have not been met;
- The employee is subject to formal disciplinary action; and/or
- The employee has advice quality, compliance, legislative, values-based behavioural or performance issues.

Deferral and clawback provisions are in place to encourage a long-term focus and to ensure that appropriate risk reviews are conducted before any remuneration is paid.

The clawback provisions were not exercised during the financial year ended 30 June 2021.

Risk and Financial Control Personnel

Risk and financial control personnel (as defined in paragraph 57(b) of CPS 510) are employed in centralised functions across People's Choice. Remuneration outcomes for these individuals are based on the performance of People's Choice and their individual performance against KPIs.

People's Choice takes control measures to ensure that risk and financial control personnel are remunerated independently of the business units they oversee as outlined below:

- All components of remuneration for risk and financial control personnel are documented in accordance with remuneration policies and procedures and require the following levels of approval and disclosure:
 - o Fixed components – requires approval by the CEO and endorsement by the Committee and the Board;
 - o Variable components – requires approval by the CEO and are reported to the Committee.
